

## A Full-Service Project Execution Firm

With Hargrove, you get the capacity, experience, integrative capabilities, and broad cross-section of expertise you'd expect to find in a global firm with all the agile responsiveness and personal service of a local firm.

## Project Execution Capabilities

- Integrated Team Approach + Alignment
- Interactive Planning Sessions for Schedule Development + Planning
- Project Phase Readiness Reviews (PDRIs)
- Ongoing Team Coordination + Reviews
- Seamless Project + Vendor Data document management
- Action Item Maintenance + Resolution/Project Decision Logs
- Early Constructability Studies
- Alignment with Procurement, Expediting, and Inspection Services
- Lessons Learned Recorded + Reviewing at the beginning/end of each phase

## Hargrove in an EPC Role

We assess each project as a unique construction opportunity and utilize our large portfolio of construction partnerships to strategically integrate the best fit for both the client and the contractor. As the overall EPC lead, we utilize our own construction management team along with our procurement, safety, and quality specialists. Our commitment to excellence covers all aspects of the EPC project and ensures a consistent culture directed toward a safe, efficient, high quality end product is achieved for the client.

# Project Lifecycle
